The image features a map of Portugal and its surrounding regions. The map is color-coded: green for the north (Verde, Porto, Vila Real), yellow for the center (Guarda, Viseu, Aveiro, Coimbra, Castelo Branco, Leiria, Portalegre, Évora), red for the Lisbon Coast, and blue for the Algarve. The Azores and Madeira & Porto Santo are shown as separate island groups. The text 'emAne worldwide link for A new education' is overlaid on the map. To the left of the map is a vertical graphic of a DNA double helix with a globe at the top, and the year '2015' is written in large white letters with a red outline. The title 'Tour 3: Europe and North Africa' is at the top, and 'PEDAGOGIA 3000' is in a blue banner. At the bottom, 'Madeira, Portugal' and 'October 2015' are written in large red letters with white outlines.

Dear friends,

It is with great joy that we send you the bulletin of **Madeira, a precious Portuguese island located at north of Canary Islands**. It's the fifth stop of the third tour of 2015 of [Pedagooogy 3000 and emAne](#), [worldwide link for a new education](#).

We had two precious workshops in Madeira. An impeccable organization, a lot of enthusiastic people, a lot of new information, a nice web that weaves for the countries of Portuguese language.

I was delighted.

Thank you very much.

Gratitude

I thank with all my heart to this beautiful team, Margarida Meira (margaridameira@gmail.com) for her tremendous organization and affection, and Gil, to Vanda Perestrelo, the principal of the school **Escola Básica com Pré Escolar da Achada** (who so graciously welcomed us for the events) and author of the book *Mindfulness in education*

To Isabel and Rafael, and to the beautiful team Porto de Portugal who came to the event.

With plans of translation and printing of the book of 7 Petals, more training, Scientific Alliance and several projects. And more translations from Brazil and also several projects, among others, the Scientific Congress.

For help on Portuguese translation of the book of 7 Petals and other books,

Noemi Paymal in Madeira

The Ilha Verde- educação em liberdade/Associação Germinar- Comunidade de aprendizagem, bring to Madeira, Noemi Paymal the creator of Pedagoogy 3000, to the realization of 2 workshops, days 13th and 14th October 2015, whose themes involve Education of the children of today and tomorrow, born in these times of energy change and quantum leap of consciousness, in a great process at the Planetary level which we cannot ignore.

Noemi Paymal, who colaborated with more of 33 countries from Latin America to the world, she is french, investigator, communicator, anthropologist and author. She comes to talk to us about alternative education and all her experience as a result of a vast scientific knowledge about the physiological, psycho-emotional, and neurological changes of the children of today, and the integral and innovative pedagogical tools: bio-intelligents, intelligents, bio-morphics, and reconnected, capable of a greater vision over the human being in all its totality (body, mind, and spirit).

In these days, the current educational system can no longer respond to the real needs and requirements of the new generations. We trie to change the name, the concept, the pedagogy, we think that we innovate, but the format is always the same: an equal school for all, a struggle for a better place ... a place for losers and winners ... an empty place full of nothing.

We will learn a lot during 2 days with Noemi Paymal, through her vision and holistic orientation, integral, unconditional, empathetic, with firmness and connection. There is an urgent need to begin to think and act differently.

The meeting will be at Escola Básica com Pré Escolar da Achada- Estrada Drº João Abel de Freitas nº 128- days 13th and 14th October, from 18.30 to 22.30 and the registrations made through Ilha verde in the Link created for this event <https://facebook.com/events/718659548255938/> or through cellular +351 91 940 4600.

Message from the children of today to the adults of today

“Dear adults, we are spontaneous, free, and responsible children. We wait for you to tell us the story of Ilha Verde, where the school is free ... alive ... without judgment or comparisons, where we learn with full presence and gratitude, to listen to ourselves and reconnect ourselves with our Deep Self, so we can then smile with courage and the certainty that everything is right in the Here and Now.

Don't forget us! You are responsible for your choices, have the courage to change! We wait for you in Ilha Verde to tell us your success story. Feel our deep unconditional love hug, without criticism nor judgment. Together we will build a new Story, a New Beginning!

*Deeply grateful
We, the children of the New World!"*

News from Porto Alegre, Brazil

<http://www.institutovivabem.com/ingrid2/>

Dear friends, colleagues and partners of this earthly journey,

I have great news!!!

A lot of people tell me that they'd like to do something strong and consistent to help change the world, that makes a difference to many people, so:

We have prepared a series of videos about the New Generations that respond to the frequently asked questions made by parents, educators and health professionals. I believe it is a very necessary and important work, so the children of now can be understood, respected and supported appropriately for their healthy and balanced development.

And so the children can accomplish their mission of life!

I invite you to register in the following link and to inscribe to watch these videos!

I also ask you to help us publish and forward this link to your groups and contact lists, suggesting them to inscribe!!!
